Dear Friends,

Greetings from the ISPAE-EC 2023-24!

We had a great year of pediatric endocrinology in 2023. The biennial ISPAE meeting was conducted at Bengaluru successfully in November 2023. The success of the meeting with respect to academics and hospitality was brilliant. A galaxy of international and national faculty graced the occasion, shared their enormous experience, and enriched the knowledge of the participants of the Fellows School, which preceded the scientific meeting. The range of topics covered by the scientific program was excellent. The organizing team excelled in all the arrangements, including the inauguration ceremony graced by the very special Dr. Veeramuthuvel, the Project Director of Chandrayaan Mission.

We are sure that the year 2024 will be successful, too.

We have an interesting ISPAE-ACES meeting with two interesting lectures by Prof. Claus Gravholt and Dr. Vaman Khadilkar. The ISPAE Type 1 diabetes registry is ready.

Best wishes,

Ahila Ayyavoo,
Department of Paediatric Endocrinology and Diabetes,
G. Kuppuswamy Naidu Memorial Hospital and Parvathy Clinic,
Coimbatore, Tamil Nadu, India.
